FOR IMMEDIATE RELEASE

### **Thunder Storms the Oklahoma School of Science and Mathematics**

Oklahoma City, OK. (November 1, 2018) – The Oklahoma City Thunder made a surprise visit to the Oklahoma School of Science and Mathematics (OSSM) on Friday, October 26.

Thunder players, Patrick Patterson, Terrance Ferguson, Steven Adams, Jerami Grant and Alex Abrines surprised Dr. Brent Richards Zoology lab while the students were dissecting clams and squids. All five players arrived in lab coats and got to work.

“Nothing is more exciting than having these great big Thunder players working alongside our students, asking questions and showing real interest in what we are learning,” said Dr. Brent Richards.

This is the second visit that the Thunder has made to OSSM and one these lab students will not forget.

OSSM is a residential high school for juniors and seniors from across the state and is the only one of its kind in Oklahoma. Its mission is to prepare young Oklahomans to think critically by excelling in the studies of science and mathematics. The curriculum is designed not only to immerse students in a rigorous two-year program of advanced physics, mathematics, biology, chemistry and humanities, but also to instill in them a sense of community service. For more information, call 521-6436 or log on to [www.ossm.edu](http://www.ossm.edu).
